Full-stack developer with experience in creating command line applications and construction/use of API's. Possess a B.S. in Communications, coding boot camp certification and expertise in photo editing & design software. Aiming to leverage my skills to create and assist with innovative and useful applications.

EDUCATION

The University of Texas at Austin, Austin, TX

Bachelor of Science in Radio-Television & Film, May 2020

The Coding Boot Camp at the University of Texas at Austin

Certificate , September 2020

EXPERIENCE

- **NEXX Level Solutions [Web Developer/Graphic Designer] [March 2021]**
 - Completely rebuilt & redesigned WordPress site and wrote all page contents.
 - Utilized Adobe Illustrator & Photoshop to create flyers, logos & graphics.
 - Built multiple marketing funnels on CMS websites other than WordPress.

PROJECTS

- **Google Books Search**
 - A search engine that works with the Google Books API in order to return all relevant books based on the title. Backend functionality created with MongoDB Atlas and Express allows the user to save and delete books to a persisting list.
 - Languages used: HTML5, CSS, JavaScript, Node.js, Express.js & MongoDB Atlas
 - GitHub: <https://github.com/nmichel123/README-Generator>
 - Deployed Application: <https://frozen-peak-99479.herokuapp.com/>
- **Note Taker**
 - Note taking application that allows a user to save notes with a title and body to an Express backend server.
 - Languages used: HTML5, CSS, JavaScript, Node.js & Express.js
 - GitHub: <https://github.com/nmichel123/Note-Taker>
 - Deployed Application: <https://calm-citadel-96049.herokuapp.com/>
